DETAILED ACTION

Status of the Application

This Office Action is in response to applicant's response filed on 8/21/2007. Applicant's election **with** traverse of the restriction requirement in the reply is acknowledged. Upon further consideration, a new restriction requirement is necessary. Accordingly, the species requirement of the last restriction requirement is now withdrawn.

Claim(s) 1-34 are pending. Claim(s) 5, 11-19 have been withdrawn from further consideration as stated in the restriction requirement filed on 6/21/2007, pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Claims 1-4, 6-10, 20-34 are now subject to a restriction requirement below.

Election/Restrictions

Restriction to the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6-10, 20-34 are drawn to a composition comprising a dopamine D2-receptor agonist and an anti-cholinergic agent according to formula (1.1.1), classified in 514/256.

Note: The above group further contains each of the specific dopamine D2-receptor agonist listed below (A-AA) so as to form a separate invention. Applicant is required to select one of each, for example Group I-A.

- A. alentemol
- B. apomorphine
- C. biperiden

Art Unit: 1617

- D. bromocriptine
- E. cabergoline
- F. carmoxirole
- G. ciladopa
- H. dopexamine
- I. fenoldopam
- J. ibopamine
- K. levodopa
- L. lisuride
- M. methylenedioxypropylnoraporphine
- N. naxagolide
- O. N-allylnoraporphine
- P. pergolide
- Q. pramipexole
- R. propylnorapomorphine
- S. protokylol
- T. quinagolide
- U. quinpirole
- V. ropinirole
- W. roxindole
- X. talipexole
- Y. terguride

Z. trihexyphenidyl

AA. trihydroxyaporphine

The inventions are distinct, each from the other because of the following reasons:

Inventions I-A through I-AA are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions A through AA are totally different compounds. They have different structures, thus leading to different reactivity, binding affinity, mechanism, stability, polarity, bioavailability, efficacy, solubility, and modes of action. Furthermore, the search for one will not lead to information regarding another, and vice versa. Because these inventions are distinct for the reasons given above and the search required for one invention is not required for another, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call to the attorney is not required where: 1) the restriction requirement is complex, 2) the application is being prosecuted pro se, or 3) the examiner knows from past experience that a telephone election will not be made (MPEP § 812.01). Therefore, since this restriction requirement is considered complex, a call to the attorney for telephone election was not made.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yong S. Chong whose telephone number is (571)-272-8513. The examiner can normally be reached on M-F, 9-6.
